### Mission

As an organized, independent, natural leader who has taken part in the development and leadership of multiple successful production applications, I'm now seeking my next endeavour — driven by a passion for producing highly efficient, maintainable codebases while keeping unparalleled attention to detail. Furthermore, I have a proven track record of stable development and leadership strategies. Moving forward, I hope to continue to build relationships and foster healthy team environments.

Past experiences of code review and instructing have granted me the ability to read others' code and think through their thought process. Ultimately, this allowed me to see the bigger picture and stay open to new ways of problem-solving while recognizing when to adhere to fundamental design patterns.

Not only am I proficient in software development, and leadership, I also abide by a future and user-first mentality, thinking not only of the end-user but also the next developer. Providing elegant, simple solutions to complex problems while meeting the needs of the end-user is my primary focus.

Please take a moment to view my resume, Github, LinkedIn, and contact my references to solidify the above statements.

Best regards,

Matthew

## EXPERIENCE

### Team Lead / Developer

STET Solutions Inc. | Aug 2018 - Feb 2020

Lead the development team while ensuring product quality on multiple production applications within the Financial and E-commerce sector. Actively participated in daily code review while drafting proof of concepts to illustrate simple solutions to complex problems.

#### Focused Languages and Technologies:

JavaScript / TypeScript / Node / Express / Koa  
React / Polymer (Web Components)  
Ava / Puppeteer  
PostgreSQL  
Git / Github

### Instructor

Durham College | Jan 2017 - Aug 2018

Contracted to teach and draft course outlines for the school of Media, Art, and Design.

#### Courses Taught:

Media Integration (PHP / MySQL, jQuery, AJAX)  
Scripting For Design (Javascript)  
Digital Illustration and Imaging (Illustrator / Photoshop)  
Interactive Design and Animation (Adobe Animate)

### Full Stack Developer

SO Creative Inc. | May 2014 - Aug 2018

Developed native indoor navigation iOS applications utilizing new and upcoming technologies based on research results.

#### Focused Languages and Technologies:

iBeacon / EddyStone (BLE)  
Objective-C / Swift  
PHP (PDO) / MySQL  
HTML5 / CSS3  
Javascript / jQuery / AJAX / JSON  
Git

### Front-End Developer

Durham College | Jan 2013 - Sept 2013

Facilitated front-end development on research projects in the Gaming, Agricultural, and Home Automation sector.

#### Focused Languages and Technologies:

HTML5 / CSS3  
Javascript / jQuery / Angular  
PhoneGap  
Git

## EDUCATION

### Multimedia Design (Advanced Diploma)

Durham College | 2010 - 2013

Graduated with a 4.47 GPA and awarded presidential honours.

## CERTIFICATES

### Learn Java

codecademy.com | Sept 2016

### Distributing iOS Applications Through the App Store

lynda.com | Jan 2016

### Up and Running With Angular.js

lynda.com | June 2015

### iOS App Development Essential Training

lynda.com | June 2014

### Objective-C Essential Training

lynda.com | May 2014

## CHARITY WORK

### Monica Martineau Foundation

IT / Web-Master | 2013 - Present

Manages IT related items and web support for the Monica Martineau Foundation. The Monica Martineau Foundation Provides scholarships for graduating grade 8 and 12 students, funds for the Society of St. Vincent de Paul and for R. Martineau House for mentally and physically handicapped individuals.

## SKILLS

### Languages

JavaScript and TypeScript  
Objective-C and Swift  
HTML5 and CSS3  
PHP and PDO  
MySQL and PostgreSQL  
ActionScript 3.0

### Tools

Adobe and Google Suite  
Asana and Monday.com  
Slack  
Git and Github  
NPM  
pgAdmin  
phpMyAdmin  
Postman and Swagger  
Webpack  
VSCode  
Xcode

### Libraries

Angular  
Ava  
Node  
Express and Koa  
PM2  
React and Polymer  
Puppeteer  
jQuery  
Bootstrap  
Material Design

### Concepts

Code Review  
E2E Testing  
Object Oriented Programming  
Model View Controller  
RESTful API Structure  
Progressive Web Apps  
Web Components

## AWARDS

### Presidential Honours

Achieved an average of more than 80% for 35 credits

### Honour Roll

Achieved an average of more than 80% for 6 classes

### English Award

Graduated with the highest grade in academic English

## INTERESTS

Playing music  
Listening to music  
Listening to podcasts  
Reading  
Gardening  
Jogging and hiking  
Health
